List of Contents of Volume 34 (2005)

Issue 1

P. Augsdorfer, **Bootlegging and path dependency** 1
T. Shibata, M. Yano and F. Kodama, **Empirical analysis of evolution of product architecture. Fanuc numerical controllers from 1962 to 1997** 13
P. D'Este, **How do firms' knowledge bases affect intra-industry heterogeneity? An analysis of the Spanish pharmaceutical industry** 33
E. Giuliani and M. Bell, **The micro-determinants of meso-level learning and innovation: evidence from a Chilean wine cluster** 47
W. Dolfsma, **Towards a dynamic (Schumpeterian) welfare economics** 69
R. Leoncini and S. Montresor, **Accounting for core and extra-core relationships in technological systems: a methodological proposal** 83
J.J. Reuer and M. Zollo, **Termination outcomes of research alliances** 101

Book reviews 117

Issue 2

T. Laamanen, **Dependency, resource depth, and supplier performance during industry downturn** 125
M. Piva, E. Santarelli and M. Vivarelli, **The skill bias effect of technological and organisational change: Evidence and policy implications** 141
S.S. Blume, **Lock in, the state and vaccine development: Lessons from the history of the polio vaccines** 159
D. Archibugi and A. Coco, **Measuring technological capabilities at the country level: A survey and a menu for choice** 175
B. Cassiman, M.G. Colombo, P. Garrone and R. Veugelers, **The impact of M&A on the R&D process. An empirical analysis of the role of technological- and market-relatedness** 195
H.-G. Deyle and H. Grupp, **Commuters and the regional assignment of innovative activities: A methodological patent study of German districts** 221
N. Roijakkers, J. Hagedoorn and H. van Kranenburg, **Dual market structures and the likelihood of repeated ties – evidence from pharmaceutical biotechnology** 235

Book Reviews 247

Issue 3

Special Issue: University-based Technology Initiatives

Guest Editors: Albert N. Link and Donald S. Siegel

A.N. Link and D.S. Siegel, **University-based technology initiatives: Quantitative and qualitative evidence** 253
J.D. Adams, G.C. Black, J.R. Clemmons and P.E. Stephan, **Scientific teams and institutional collaborations: Evidence from U.S. universities, 1981–1999** 259
G. Tassey, **The disaggregated technology production function: A new model of university and corporate research** 287
F.T. Rothaermel and M. Thursby, **University–incubator firm knowledge flows: assessing their impact on incubator firm performance** 305
K. Debackere and R. Veugelers, **The role of academic technology transfer organizations in improving industry science links** 321
D.B. Audretsch and E.E. Lehmann, **Do University policies make a difference?** 343
J.S. Dietz and B. Bozeman, **Academic careers, patents, and productivity: industry experience as scientific and technical human capital** 349
W. Chapple, A. Lockett, D. Siegel and M. Wright, **Assessing the relative performance of U.K. universty technology transfer offices: parametric and non-parametric evidence** 369
A.N. Link and J.T. Scott, **Universities as partners in U.S. research joint ventures** 385

Issue 4

B. Ambos, **Foreign direct investment in industrial research and development: A study of German MNCs** 395
H. Etzkowitz, J.M.C. de Mello and M. Almeida, **Towards "meta-innovation" in Brazil: The evolution of the incubator and the emergence of a triple helix** 411
T.-L. Lee and N. von Tunzelmann, **A dynamic analytic approach to national innovation systems: The IC industry in Taiwan** 425
N. Kumar and A. Aggarwal, **Liberalization, outward orientation and in-house R&D activity of multinational and local firms: A quantitative exploration for Indian manufacturing** 441
D. Consoli, **The dynamics of technological change in UK retail banking services: An evolutionary perspective** 461
L. Dahlander and M.G. Magnusson, **Relationships between open source software companies and communities: Observations from Nordic firms** 481
L. Cherchye and P.V. Abeele, **On research efficiency. A micro-analysis of Dutch university research in Economics and Business Management** 495
C. Hipp and H. Grupp, **Innovation in the service sector: The demand for service-specific innovation measurement concepts and typologies** 517
K.H. Mok, **Fostering entrepreneurship: Changing role of government and higher education governance in Hong Kong** 537
T. Luukkonen, **Variability in organisational forms of biotechnology firms** 555
M.J. Mol, **Does being R&D intensive still discourage outsourcing? Evidence from Dutch manufacturing** 571

Issue 5

K. Motohashi, **University–industry collaborations in Japan: The role of new technology-based firms in transforming the National Innovation System** 583
D.B. Audretsch and J. Weigand, **Do knowledge conditions make a difference? Investment, finance and ownership in German industries** 595
G. Dushnitsky and M.J. Lenox, **When do incumbents learn from entrepreneurial ventures? Corporate venture capital and investing firm innovation rates** 615
J. Penin, **Patents versus ex post rewards: A new look** 641
B. Segrestin, **Partnering to explore: The Renault–Nissan Alliance as a forerunner of new cooperative patterns** 657
F. Barry, **FDI, transfer pricing and the measurement of R&D intensity** 673
S. Davenport, **Exploring the role of proximity in SME knowledge-acquisition** 683
D. Hicks and D. Hegde, **Highly innovative small firms in the markets for technology** 703
K.B. Dahlin and D.M. Behrens, **When is an invention really radical? Defining and measuring technological radicalness** 717
M. Heidenreich, **The renewal of regional capabilities. Experimental regionalism in Germany** 739

Issue 6

Q. Mu and K. Lee, **Knowledge diffusion, market segmentation and technological catch-up: The case of the telecommunication industry in China** 759
J. Rigby and J. Edler, **Peering inside research networks: Some observations on the effect of the intensity of collaboration on the variability of research quality** 784
M.G. Colombo and L. Grilli, **Founders' human capital and the growth of new technology-based firms: A competence-based view** 795
F. Djellal and F. Gallouj, **Mapping innovation dynamics in hospitals** 817
A. van Rooij, **Why do firms acquire technology? The example of DSM's ammonia plants, 1925–1970** 836
P. Tang, **Digital copyright and the "new" controversy: Is the law moulding technology and innovation?** 852
S. Kannebley Jr., G.S. Porto and E.T. Pazello, **Characteristics of Brazilian innovative firms: An empirical analysis based on PINTEC—industrial research on technological innovation** 872
S. White, J. Gao and W. Zhang, **Financing new ventures in China: System antecedents and institutionalization** 894
C.-Y. Lee and T. Sung, **Schumpeter's legacy: A new perspective on the relationship between firm size and R&D** 914
M. Gulbrandsen and J.-C. Smeby, **Industry funding and university professors' research performance** 932
C. Lüthje, C. Herstatt and E. von Hippel, **User-innovators and "local" information: The case of mountain biking** 951
K.-H. Tsai and J.-C. Wang, **Does R&D performance decline with firm size?—A re-examination in terms of elasticity** 966

Book Reviews 977

Issue 7

Special Issue: The Creation of Spin-off Firms at Public Research Institutions: Managerial and Policy Implication

Guest Editors: Andy Lockett, Donald S. Siegel, Mike Wright and Michael D. Ensley

A. Lockett, D. Siegel, M. Wright and M.D. Ensley, **The creation of spin-off firms at public research institutions: Managerial and policy implications** 981
R.P. O'Shea, T.J. Allen, A. Chevalier and F. Roche, **Entrepreneurial orientation, technology transfer and spinoff performance of U.S. universities** 994
N. Moray and B. Clarysse, **Institutional change and resource endowments to science-based entrepreneurial firms** 1010
J.B. Powers and P. McDougall, **Policy orientation effects on performance with licensing to start-ups and small companies** 1028
A. Lockett and M. Wright, **Resources, capabilities, risk capital and the creation of university spin-out companies** 1043
G.D. Markman, P.T. Gianiodis, P.H. Phan and D.B. Balkin, **Innovation speed: Transferring university technology to market** 1058
F.T. Rothaermel and M. Thursby, **Incubator firm failure or graduation? The role of university linkages** 1076
M.D. Ensley and K.M. Hmieleski, **A comparative study of new venture top management team composition, dynamics and performance between university-based and independent start-ups** 1091
A.N. Link and J.T. Scott, **Opening the ivory tower's door: An analysis of the determinants of the formation of U.S. university spin-off companies** 1106
D.B. Audretsch, E.E. Lehmann and S. Warning, **University spillovers and new firm location** 1113

Issue 8

Special Issue: Regionalization of Innovation Policy

Guest Editors: Michael Fritsch and Andreas Stephan

M. Fritsch and A. Stephan, **Regionalization of innovation policy—Introduction to the special issue** 1123
P. Cooke, **Regionally asymmetric knowledge capabilities and open innovation. Exploring 'Globalisation 2'—A new model of industry organisation** 1128
P. Rondé and C. Hussler, **Innovation in regions: What does really matter?** 1150
B.T. Asheim and L. Coenen, **Knowledge bases and regional innovation systems: Comparing Nordic clusters** 1173
D.B. Audretsch and E.E. Lehmann, **Does the Knowledge Spillover Theory of Entrepreneurship hold for regions?** 1191
F. Tödtling and M. Trippl, **One size fits all? Towards a differentiated regional innovation policy approach** 1203
J. Howells, **Innovation and regional economic development: A matter of perspective?** 1220

M. Feldman and R. Martin, **Constructing jurisdictional advantage** 1235
M. Fromhold-Eisebith and G. Eisebith, **How to institutionalize innovative clusters? Comparing explicit top-down and implicit bottom-up approaches** 1250
A. Eickelpasch and M. Fritsch, **Contests for cooperation—A new approach in German innovation policy** 1269

Issue 9

J.S. Metcalfe, A. James and A. Mina, **Emergent innovation systems and the delivery of clinical services: The case of intra-ocular lenses** 1283
M.C. Becker, P. Salvatore and F. Zirpoli, **The impact of virtual simulation tools on problem-solving and new product development organization** 1305
M.-C. Hu and J.A. Mathews, **National innovative capacity in East Asia** 1322
P. Criscuolo, **On the road again: Researcher mobility inside the R&D network** 1350
A. Reinstaller, **Policy entrepreneurship in the co-evolution of institutions, preferences, and technology. Comparing the diffusion of totally chlorine free pulp bleaching technologies in the US and Sweden** 1366
A. Hyytinen and O. Toivanen, **Do financial constraints hold back innovation and growth? Evidence on the role of public policy** 1385
T.B. Åstebro and K.B. Dahlin, **Opportunity knocks** 1404
M. Miozzo and D. Grimshaw, **Modularity and innovation in knowledge-intensive business services: IT outsourcing in Germany and the UK** 1419
I. Álvarez and J. Molero, **Technology and the generation of international knowledge spillovers: An application to Spanish manufacturing firms** 1440

Book reviews 1453

Issue 10

B. Gay and B. Dousset, **Innovation and network structural dynamics: Study of the alliance network of a major sector of the biotechnology industry** 1457
G. Reikard, **Endogenous technical advance and the stochastic trend in output: A neoclassical approach** 1476
A. Smith, A. Stirling and F. Berkhout, **The governance of sustainable socio-technical transitions** 1491
P.B. de Laat, **Copyright or copyleft? An analysis of property regimes for software development** 1511
J.F. Christensen, M.H. Olesen and J.S. Kjær, **The industrial dynamics of Open Innovation—Evidence from the transformation of consumer electronics** 1533
S. Massini, A.Y. Lewin and H.R. Greve, **Innovators and imitators: Organizational reference groups and adoption of organizational routines** 1550
D.M. Waguespack, J.K. Birnir and J. Schroeder, **Technological development and political stability: Patenting in Latin America and the Caribbean** 1570
I. von Wartburg, T. Teichert and K. Rost, **Inventive progress measured by multi-stage patent citation analysis** 1591

C.S. Wagner and L. Leydesdorff, **Network structure, self-organization, and the growth of international collaboration in science** 1608
S.P.H. Heap and A. Parikh, **The diffusion of ideas in the academy: A quantitative illustration from economics** 1619
